WeCare is for caregivers who are oftentimes overwhelmed, struggle with too many duties and are unsure where to find support.

HOW WILL I BE SUPPORTED?

Support offered through the program includes, but is not limited to:

Connections to transportation,
meal and home safety resources

senior services and support groups

Identification of long-term
living arrangements

Resources for legal and financial guidance

Educational materials to better
understand diseases and behaviors

Creation of a step-by-step action plan

My Care Consultant allowed me to be very transparent. I felt very comfortable sharing my feelings openly, and the openness provided space to ask questions and reach out for help when I needed it.
—Angelique S.

WHAT CAN I EXPECT?

You will be connected with a dedicated Care Consultant to ensure personal, expert guidance.

Caregiver support begins with your first call. We'll talk about your priorities and future care too.

HOW WILL I WORK WITH MY CARE CONSULTANT?

And you can schedule meetings for times that work best for you.

My Care Consultant has given me a huge amount of resources that help me make sure my mother is receiving what she needs, and she also gives me encouragement about how to best help my mom.
